PROJECTS

Amharc Tech projects:-

– **ebaskat** (in house project)
Short descripton: This is an ecommerce project, but a little bit exception. All products internally import from aliexpress and bigbuy ecommerce by api. And also manage all orders through api to the **aliexpress and bigbuy**. Its like dropshipping.I am dedicatedly assigned for ebaskat admin panel. All this process manage from admin panel. Continue working in this project yet now.

contributed Projects
– **Magica maids, Mac fuel, Village Cafe**

RD NETWORK BD LLC projects:-

– Courier Management System

– Digital Diagnostic Management System

– Logistic Management System

– Restaurant Management System

– Martimony

– Care Incubator

– Invoice Management System

– School Management System

– Visa Billing

– Inventory Management System

– UpDigital (gov)

– FLID (Fisheries and Livestock Information Dept)..
